CENSUS TRACT CODE REVIEW MAP - LEGEND

SYMBOL	DESCRIPTION	SYMBOL	DESCRIPTION	SYMBOL	DESCRIPTION
	American Indian Reservation and/or OH-Reservation Trust Land		Water Body		Interstate or U.S. Highway
	State (or statistically equivalent entity)		College or University		State Highway/Road
	County (or statistically equivalent entity)		Other Road		March 1st
	Minor Civil Division (MCD) ¹		4WD Trail, Stewary, Alley, Walkway, or Ferry		
	Consolidated City		Public		
	Incorporated Place ²		Nonresidential Building		
	Census Designated Place (CDP)		National Park or Forest		
	Census Tract ³		Outside Subject Area		
			Inset Area		

¹ MCDs are symbolized and labeled only in the 12 strong MCD states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

² Incorporated place name color corresponds to the incorporated place fill color.

³ The full census tract code consists of six digits with an implied decimal point between the fourth and fifth digits. For legibility on this map, the leading zeros have been stripped and the decimal point is shown. To translate a census tract number on the map to its full code, add as many zeros as needed to the left side of the number to reach six total digits and remove the decimal point before the last two digits.

Example: Census tract number on the map "33.007" represents census tract code "003307".

Where state and county, and/or MCD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

State and county names are followed by their FIPS code.

Due to space limitations, some road names, along with other feature and geographic names on the map, may not be shown.
